APPLAUSE, APPLAUSE...Through no fault of GSU the food service people were not here to serve on last Thursday after the snowstorm. We were not forced out onto icy roads for food due to the splendid efforts of Hank Huitt and his merry band of volunteers: Hector Ortiz, Susan Woodham, Bill Gregory, Chris Tolbertt, Barbara Willis, Bob Kinsella and Barbara Low. Our heartfelt appreciation to all involved--especially Hank for organizing the effort. Those who were being served deserve thanks too, for they were patient and several were overheard volunteering their services if more help was needed. All-in-all, it was the most solid display of esprit de corps we have seen in a long time.

Thanks,
LRC-Tech. Services Staff...
and all of GSU

FAZE FOCUS ON...FRANCHON LINDSAY

If you stop and think a minute, you'll realize that every Civil Service employee who has come to GSU in the past two years should know one name - Franchon Lindsay. Fran has placed over 2,000 permanent and temporary GSUers. As Personnel Officer I, she is responsible for the testing and placement of each applicant who stops in at the first floor office seeking a GSU position. After two years and testing 1,674 applicants, Fran says she loves it and has plans to become more skilled in all areas of the personnel management field. She also believes the Personnel Office is the ideal place to be since "the atmosphere is nice and the people are great." Her avocation is helping others, and the 27-year-old does just that whenever she can in screening applicants. Noting that all persons don't test well, Fran says there are times when an applicant may have an extraordinary experiential background but does not make a qualifying score on the appropriate exam. It's times like those when she has to use her personnel counseling ability to steer them in another direction, toward a position for

which they qualify and can still derive employment satisfaction. She never passes up a chance to suggest enrolling at GSU as a means to a good job. Of course, she has to be knowledgeable about all aspects of the GSU personnel office to answer questions about pay administration, classification and procedure.

On the road to becoming an expert personnel specialist, Fran is a psychology student at Prairie State. She plans to continue her studies at GSU next year. Actually a whiz with numbers, she began her early college education as a math major at Illinois State University and thinks business administration is an important part of personnel management.

With a Park Forest home full of handmade wooden furniture, she enjoys the benefits of her husband Henry's hobby - woodworking. A 13-year employee with Ford Motor Company, he has made everything from their bedroom furniture to the shadowbox which mirrors their den furnishings in the basement. Their six-year-old son Tione is already trying to help. An intense reader of fiction, Fran also likes to bowl in the winter and describes herself as "the best firstbaseperson at the stretch" in the summer. A poet at heart, she writes of children and peace and life. One poem, written eight years ago, included "In each day I try/Try to find a way/To help the wondering roaming minds/Of children gone astray." Her help does not always go unappreciated. Fran has received notes, cards and calls thanking her from many who have gone through her office. She adds with a smile, "But I have yet to receive flowers." Among us at GSU there are those who think she deserves them.
